

# Complete GME interview management for applicants & programs

Thalamus Core

**Thalamus Core** enables you to run a more equitable and productive GME recruitment season with workflow automation supported by data driven insights, its more than just a scheduling system.

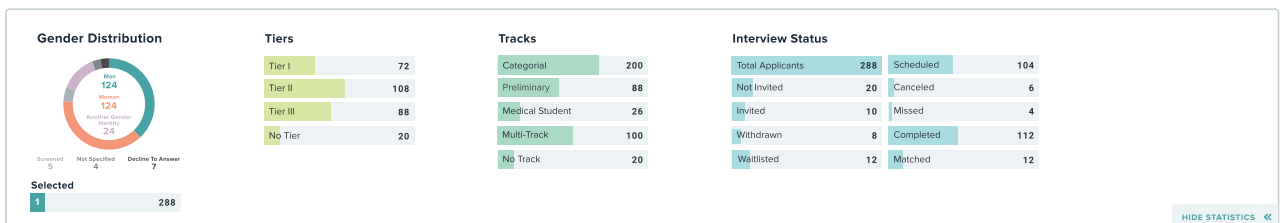

**Program Directors** > Perform more equitable applicant screening, interview scoring, and rank list decisions through better processes and insights.

**Program Coordinators** > Reduce your workload and stress with weeks of time savings this coming season so you can focus on what matters most: *interacting with applicants and program leadership.*

**Applicants** > Applicants can self-schedule, instantaneously confirm interview dates and take full control of their schedules.

**Comprehensive Interview Management** > Manage multiple rounds of interviews for each applicant, including hybrid interviewing and second looks, and any number of social events, gatherings, or happy hours.
