

Manage all your simultaneous video interview sessions from our Master View™

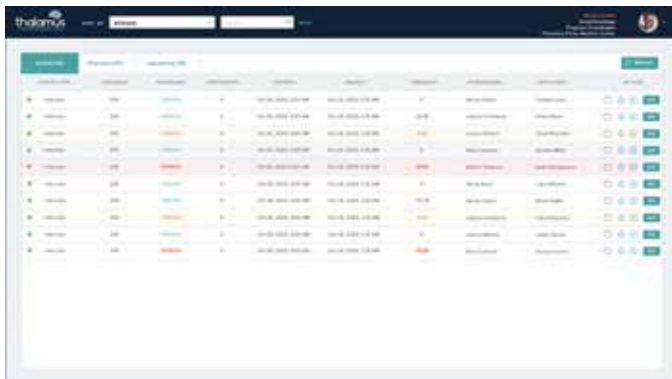

Integrated scoring, notes, and applicant data

50+ million minutes of virtual interviews completed

Thalamus Video provides a GME-focused, optimized virtual interview experience integrated directly with interviewer scoring and notes. Group meetings and breakout rooms are created automatically and linked directly to applicant and faculty schedules. Everything is tracked on interview day through a Master View™, providing a streamlined virtual experience supporting program coordinator workflows.

## Interview Master View™

Program coordinators and administrators are provided a summary view of all ongoing, prior and upcoming interviews in one convenient dashboard. Effortlessly manage interview day events and avoid the hassle of shuffling applicants and interviewers in and out of breakout rooms.

## Why Thalamus Video?

Create the ideal interview day experience seamlessly, integrated directly into Thalamus.

- Unlimited interview, group and breakout rooms.
- Assign conference and “hang out” rooms.
- Dominant speaker and gallery views.
- Full screensharing capabilities for program information.
- Easy-to-use interface for interviewers and applicants.
